Starfish Swim Lessons

The Village of Algonquin is an independent authorized provider of Starfish Swimming. Starfish Swimming is a nationally recognized swim instruction curriculum developed by the Starfish Aquatics Institute (SAI). Learn more about SAI at www.starfishaquatics.org

The Starfish Swimming curriculum is designed for students ages 6-months to adult. Benchmarks are established at each stage in the program that combine both swimming and safety skills. Students participate in experiential learning activities that allow them to explore the water in a creative and comfortable environment. Correct swimming techniques are taught from the very beginning, providing an easy transition to swim team.

StarBabies (Age 6 months-2 years)

StarTots (Ages 18 Months-3 years)

This course is a parent/child program that introduces infants and toddlers to the water in a fun and loving environment. Parents or caregivers are taught effective techniques to teach their infants and toddlers how to float, submerge, move in the water, and roll over to breathe. Classes incorporate songs, activities, and water safety education.

Starfish Swim School for Preschoolers (Ages 3-5 years)

Designed to meet the needs of children ages 3 to 5, this course will develop a high comfort level in the water and a readiness to swim, and for those children who are developmentally ready, it will teach functional swim skills. This class approaches teaching swimming through creative, fun activities in the water. Students work toward developing the five competencies and progress toward achieving the benchmarks at their own pace in a small-group setting.

Starfish Swim School (Ages 6 years - Adult)

This program is for youth and adult students to develop a foundation of swimming and safety skills with a focus on self-rescue:

- * trust and submersion
- * body positions and air recovery (includes rollover to back for air recovery)
- * forward movement and direction change
- * rotary movement (transitions from rollover to side position for air recovery)
- * integrated movement
- * age-appropriate safety skills such as asking permission, wearing a lifejacket, using flotation to make an assist, treading water and survival float

Starfish Stroke School (Ages 6 years-Adult)

The Stroke School for youth and adult students develops effective swim technique and endurance for:

- * Freestyle
- * Backstroke
- * Butterfly
- * Breaststroke

Inclement Weather Policy:

All lessons are taught at an outdoor facility and it is not uncommon for lessons to be cancelled due to inclement weather. Lessons will generally be held if the temperature is 65 degrees or higher, as we do have a heated pool. **It is the responsibility of the participants to check on the status of class when weather looks questionable or is inclement. To check the status of class, download the Rainout Line App or call the weather line at (847) 999-0225 no more than one hour prior to class start time.** If cancelled due to inclement weather or other reasons determined by the Village, swimmers will have a scheduled makeup class. If more than two lessons in a session are cancelled by the Village, a credit will be applied to the family's account for future use. Credits and/or prorates are not issued to students who cannot attend makeup date.

Estate Planning 101

Join us for an informative and important discussion about why estate planning isn't just for the wealthy or elderly – it's for EVERYONE over 18 (Yes, really!). We will discuss the essentials in plain English, starting with three documents that often get confused: Wills, Living Wills, and Trusts. We'll explain what they are and what makes them different. We'll also cover important but often overlooked documents that can make a huge difference in your life, such as: Property Powers of Attorney and Health Care Powers of Attorney (HCPOA). And we will discuss the confusion between HCPOAs and other end-of-life documents like DNRs and POLST forms. Our presentation is conversational and we welcome your questions throughout the session. Whether you're just starting your career or planning for retirement, you'll learn why having an estate plan matters, regardless of the size of your estate.

Estate Planning 102

This session will take a deeper dive into estate planning, including addressing the “not-so-obvious” matters that are rarely discussed but which could matter more than you may realize. Among other advanced estate planning topics, we'll discuss elder care law, including how Medicaid Asset Protection Trusts (MAPTs) can help protect your family's assets and future. We'll talk about how to avoid worrying about what would happen to your beloved pets, by discussing pet trusts and how to ensure your furry family members are cared for. For parents of newly independent teens, we'll address the unique estate planning challenges that come with having a minor who's just reached the legal age of maturity. We will also generally discuss Social Security, Medicare and Medicaid. We will also touch on college applications and financing.

Understanding the Probate Process

Losing someone you love is an inevitable reality that often comes at a time when our thought process and judgment are impacted by grief. In those first raw days, you're faced with countless decisions and paperwork, all while grieving. Where do you even begin? What happens to their belongings? And what if they didn't leave a Will? This seminar will guide you through the probate process, explaining complex legal terms. We will discuss the basics of probate and address different issues you may encounter. We will explain what it means to be a “personal representative” (and what that actually involves), understand the actual potential costs and timelines, and discuss related tax implications. We will discuss which assets go through probate and which don't, something that confuses even the most prepared families. And to assist you in being proactive at such a challenging time, we'll discuss strategies for minimizing probate's impact on your own estate, and helping you protect your loved ones from unnecessary stress when they may need to deal with probate.
